Nelian "

REFERENCE

The company "Kangnuo International Group" use complex "Dianel ", model "DIANEL-22S-iON" software since "24th.Apr 2011"

The Complex Serial No: have shown underneath:
1. 0080216
2. 0080215
3. 0080253
4. 0080256

We are a biotechnology company based in Hongkong, China, is engaged in providing specialized medical care plan and disease prevention diagnosis to our clients ,alternative medicine, acupuncture, bioresonance testing, healing, psychophysiology etc. are the most items we put the complex in use.

During operation of complex Dianel since "May. 2011" up to "May. 2012" was made tests of about __480__ person, the entire physical test is the most frequent test we used , normally we test only for certain patients by using a general mode.

As you know , we've purchased 4 machines for our doctors to make physical tests all over the countries , but only for our valuable customers (high-end),so the overall number of patients is not as many as ordinary frequency, however , 85 % of tested patients expressed satisfaction and approval to the results it gives , which is 11% higher than the previous machines.

Working with complex Dianel , our doctors can easily see the defects and conditions of patient's cells in certain part of the body and execute a real-time monitoring on the process of tumors development which can be shown on the entropy analysis , so that we could offer a detailed suggestion to our customers on how to prevent tumors from processing .

Thanks for the complex of Dianel, we not only experienced your advanced technology but also benefited more due to the convincing result , and now we are considering buy 3 more complex.

There's only one suggestion on our side is that every time when we try to export the medical result from the complex, i have to print it one by one (4 pics on a page) , so it's suggested that set a approach or icon that we can save the result by simply a click but troublesome and time-consuming operation.
