USER REPORT

The company TANYA'S HOLISTIC & BEAUTY has been using the complex Dianel , model 22S-ION with the software CIT NELIAN since January 2015.

Our organization is engaged in bioresonance testing, bowen therapy. Our business is helping people to improve their health and lifestyle. Our business is focused on holistic treatments.

During the operation of Dianel model 22s-ion since January 2015 up to present, about 60 patients were tested with the device/ tests were performed .

The diseases and disorders that came up most often are gastritis, different types of pinworms, streptococcus and many more.

99% of our services match the clinical reports and this was confirmed by our clients.

I've the advantage that I get a diagnose on my clients and I know what kind of bowen therapy to apply to them.

Our clients are very satisfied about it because it is user-friendly and they can get detailed information about each diagnose.

To the present I haven't got any inconvenience with the complex or the software.

I'd like that the complex together with the software would show the deficiency of vitamins in the body.
